College of Engineering Pune (COEP) Pune, India
B.Tech., Computer Engineering *Oct 2020 – Jun 2024*
Coursework: Database Management Systems, Operating Systems, Computer Networks, Embedded Systems, Control Systems, C Programming, Python

Experience

AI Source Remote
Project Manager (Internship) *Jul 2025 – Dec 2025*

- Served as the sole project manager for an AI startup, reporting directly to the CEO and owning six concurrent technology initiatives with no established playbook, maintaining 100% on-time delivery over the 6-month engagement.
- Built the operating rhythm from scratch, including Agile ceremonies (sprint planning, stand-ups, retrospectives) and a Kanban board in Jira to track team workflow.
- Applied hands-on experience with LLM deployment and the OpenAI API to build automated reporting tools, reducing manual reporting effort by 40% and cutting turnaround from 7 days to 12 hours.
- Managed a $2,000,000 budget with full accountability, delivering the program $180,000 (9%) under budget over 6 months, while resolving 17 issues in partnership with functional leads across 3 teams.
- Delivered 24 weekly status reports and served as the sole presenter of sales-oriented materials to clients and investors during funding rounds.

FlytBase Pune, India
Project Coordinator / Customer Success *Nov 2023 – Feb 2024*

- Led a full business process redesign, replacing an unstructured, ad hoc onboarding documentation process with a standardized SOP adopted permanently across internal and client-facing operations.
- Managed vendor relationships, including third-party hardware vendor DJI, using Salesforce and Asana for sprint planning and resource allocation across 3 enterprise client engagements.
- Identified patterns in deployment data and drove process improvements that reduced client onboarding timelines by 15%.

FinIQ Pune, India
Project Management Intern, Financial Technology *May 2023 – Jul 2023*

- Supported client strategy and project execution across 4 parallel financial technology initiatives over a 3-month engagement, contributing to quantitative analysis and developing 8 stakeholder reports.

Entrepreneurial Ventures

Founder, Hyperlyft (Gym Wear Brand) Pune, India
Founder *Feb 2021 – Dec 2023*

- Founded and led an independent gym apparel brand from initial concept through product development, operations, and go-to-market execution.
- Scaled the business to multiple six-figure annual turnover with full financial and operational accountability, successfully selling the company ahead of relocating to the United States for graduate study.

Founder, EduWorld Pathways (Education Consultancy) Pune, India
Founder *Jul 2021 – Jul 2024*

- Founded and built an independent education consultancy, managing client relationships, curriculum strategy, and day-to-day business operations.
- Grew the business to multiple six-figure annual turnover and successfully sold the company before relocating to the United States for graduate study.

Graduate Case Studies

Alvalade XXI Payment System Failure — Risk Management Northeastern University
Project Coordinator, Group Project *2025*

- Analyzed the real-world failure of Cartão 21, a pre-paid stadium payment system that broke down publicly during a stadium's inauguration; served as project coordinator on a five-person team.
- Built a full risk management plan using a Risk Breakdown Structure, SWOT analysis, and Monte Carlo simulation, then applied FMEA and a probability-impact matrix to prioritize findings, correctly flagging final payment system deployment as the highest-risk task in the schedule.

Nava Bharat Energy Solutions — Project Scheduling and Cost Planning Northeastern University
Group Project *2025*

- Built the schedule and cost baseline for a 300 MW thermal power plant project financed through a special purpose vehicle, using Microsoft Project to build a resource-leveled, 514-day schedule across ten project resources.
- Tracked performance with full Earned Value Management, including a mid-project Schedule Performance Index of 1.063 and Cost Performance Index of 0.968.

Olympic Games Athlete Accommodation — Project Baseline Northeastern University
Group Project *2025*

- Defined the project baseline for a digital athlete accommodation system, building the work breakdown structure and requirements set behind a system targeting a 40% reduction in room reassignment errors and 95% check-in efficiency.
